

Dot Box Game

Need: Different coloured markers for each player

Object of the Game: To be the player who captures the most squares.

How to Play:

1. The first player draws ONE line by connecting any two dots that are surrounding any box. Use your coloured marker to draw the line (ie. red).
2. After you have drawn your line, your turn is over. The next player's turn begins, drawing their line in a different colour (ie. blue).
3. Players are striving to draw a line that will complete the square. When the square is complete, the player colours in that square with their coloured marker and gets to take another turn.

The player with the most coloured boxes at the end of the game is the winner.

See example below.
